## COUNTRY OF ORIGIN

*France*

## APPELLATION

*Rhone Valley*

## VARIETALS

*Chardonnay*

## TASTING NOTES

*Coming from the department of the Gard in the south of France comes this great little sippin' Chardonnay. This is the same area as the Côte du Rhône. The Gonnet family has some deep roots in this area in France and it is great to see this light hearted wine be offered as a sipper solution. Nice fresh fruit with not the hint of oak. It's great to have carte blanche when picking something to pair with this wine. Have fun!*
